JESIP PRINCIPLES FOR JOINT WORKING

CO-LOCATE

Co-locate with commanders as soon as practicably possible at a single, safe and easily identified location near to the scene.

COMMUNICATE

Communicate clearly using plain English.

CO-ORDINATE

Co-ordinate by agreeing the lead service. Identify priorities, resources and capabilities for an effective response, including the timing of further meetings.

JOINTLY UNDERSTAND RISK

Jointly understand risk by sharing information about the likelihood and potential impact of threats and hazards to agree potential control measures.

SHARED SITUATION AWARENESS

Shared Situational Awareness established by using METHANE and the Joint Decision Model.

If the principles are followed then the result should be a jointly agreed working strategy where all parties understand what is going to happen, when and by whom.

The principles will often, but not always, be followed in the order in which they are presented.
